Requirement:	<b>signature</b>			
<b>The curriculum</b>				
Educational aim: The aim of the diploma work is that at the end of the study time the student individually solves a complex task according to the requirements of the professional knowledge, demonstrating that he or she acquired competent knowledge and is familiar with the technical literature. The general rules of the subject "Diploma Work" is contained in § 32 of TVSZ. The requirement of the subject "Diploma Work" is signature. The diploma work must be defended at the Final Examination.				
Scheduling:				
<b>Midterm requirements</b>				
<i>The assessment, the procedure, the way of making up the grade, the criteria for setting the grade</i>				
Regular consultation with the internal consultant is a condition for obtaining a signature. The consultant tutor must certify the student's successful work to the course tutor at the end of the semester. Only students who submit their thesis by the uniform submission deadline, and whose advisor confirms by email that the work has been done in sufficient quantity and that the thesis is ready for submission, will be eligible for a signature. All matters not covered in this document are governed by the Regulations for Studies and Examinations and the Academic Regulations of Óbuda University.
